### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance:

The prior art of record do not anticipate nor do they reasonably suggest the handheld combination hole puncher and eyelet setter tool (claim 1); apparatus for storing a handheld combination hole puncher and eyelet setter tool (claim 10); method (claim 15); and kit (claim 16) as claimed. The closest prior art, Graham (US 4,572,038), discloses a multi-purpose tool comprising many of the claimed features including, inter alia, a handle (e.g. 14); plurality of interchangeable "punches and setters" (e.g. Fig. 4); and a holder (e.g. 38). Figs. 1-8. However, the tools of Graham are screw bits and not punches or setters. Although it may be argued that Graham's device may be used to "punch" per se, there is no teaching or suggestion in the Graham or the other prior art of record that this is the case. Moreover, the handle is not adapted for receiving impact force. This is in regards to claim 1. With respect to the rest of the claims, the Examiner is in agreement with Applicant's arguments filed on 11/29/2004.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
